

More Notes from the Philly Project Organizers

In the evenings we worship, eat and sleep at our dorm space **7500 Germantown ave, Philadelphia Pa 19119.**

Service projects depend on the needs of the community, your students will be either at a church site, a mercy site or a home repair site. Each site looks different, but painting light construction is normal for our home repair. Mercy is partnering with one of our local nonprofits and could be anything from helping organize, outdoor yard work, soup kitchen help. Finally church sites, depend on the needs of the church at the time but could be light construction like painting or more ministry focused like food prep or craft prep for Sunday school classes.

Food on the weekends is often donated by volunteers, we usually are able to have a variety with veggies always. If someone in your group has allergies we recommend bringing extra food for that individual because we cannot guarantee what food will be here on any given weekend.

The **sleeping arrangements** are in our dorm spaces. We have 2 wings, one for girls and one for boys. Both are equipped with rooms filled with bunk beds. Your group will be assigned a couple of rooms based on your group size. **All bedding will need to be brought by your group members.**

The weekend you are planning on coming we are estimating **our expected number of participants to be about 120 people.**
